Request to Terminate Supervision Prior to the Original Expiration Date

Previous court action:

On February 7, 2019, Mr. Vaughn filed a Motion for Early Termination of Supervised Release. On July 17, 2019, an order denying Mr. Vaughn's motion was filed by the court.

On April 15, 2020, Mr. Vaughn filed a Second Motion for Early Termination of Supervised Release.

The following information/request is being presented for the Court's review and decision:

Herman Vaughn commenced his term of supervised release on November 25, 2016, in the Northern District of Texas. Since that date, Mr. Vaughn has continued participation in outpatient substance abuse treatment and random drug testing. Since August 2017, Mr. Vaughn has not submitted any urine specimen that has tested positive for any illicit substance. Mr. Vaughn has continued to check in monthly as required. Mr. Vaughn has remained on Social Security-Disability income since his supervision commenced and has maintained stable residence.

A recent records check revealed no additional criminal activity while on supervised release.

Mr. Vaughn is consistently responsive to the requests of the probation officer and has made himself available for supervision. He has completed 40 months of his 5-year (60 month) term of supervised release.

Pursuant to Rule 32.1(c) of the Federal Rule of Criminal Procedure, the Office of the U.S. Attorney was advised of our plan to request an early termination of supervision ten business days prior to submission to the Court. The U.S. Attorney's office concurs with his request for early termination.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on April 27, 2020
Respectfully submitted,

Approved,

Order of the Court:

Petition is Granted. The Court agrees with the recommendation of the probation officer and orders that Herman Vaughn be discharged from supervision and the proceedings in this case be terminated.

Petition is Denied.

Other or Additional:

File under seal until further order of the Court.
